

GUILFORD COUNTY OPEN SPACE COMMITTEE

Dedicated to the preservation of open space through-out Guilford County

June 2, 2009

Sierra Club
Piedmont Plateau Group

Dear Volunteers:

On behalf of Guilford County and the Open Space Committee, we would like to offer our sincerest thanks to your Sierra Club chapter for adopting our "Bold Moon" property and for volunteering at our first ever work day. We were very impressed with the club's turnout and accomplishment for this property clean-up. By the end of the day, we filled up two entire dumpsters, one with scrap metal and the other with trash; cleaned out a dilapidated dwelling for a controlled burn; and removed over fifty fence posts for a community garden in Greensboro to reuse. We hope that we were good "hosts" for this work day and welcome any suggestions you have for future events.

We are in the process of developing a stewardship and management plan for the Bold Moon property and look forward to your future participation helping us care for this unique property, which has significant historic and environmental value. Please join us for one or two more clean-up days on the front portion of the property to help reveal the true beauty of this tract.

We hope your involvement with the Bold Moon property will lead to a healthy and fruitful partnership between the Sierra Club and the Guilford County Open Space Committee.

Appreciatively,

John D. Young
Open Space Committee Chair

Alex Ashton
Guilford County Parks and Open Space
